Technical Training Division

Self Contained Breathing Apparatus: 3 Hours

- Prerequisites:** Minimum 18 years of age. Good physical condition. Clean-shaven.
- Course Materials:** Required materials provided.
- Required P.P.E.:** CSA approved steel toed boots, coveralls, and/or appropriate clothing for inclement weather conditions.
- Course Overview:** This three (3) hour self contained breathing apparatus program is the entry level program for use of SCBA within industry or municipal fire service. This seminar is the introduction to SCBA operations, maintenance, inspection and standards governing SCBA. This seminar consists of both classroom as well as practical field instruction, with an emphasis on personal safety. The student shall learn new technology surrounding SCBA, industry versus fire service applications, operation and use of SCBA. This program provides the student with the foundation skills to confidently use a self contained breathing apparatus in any environment. Special attention shall be given to personal safety. ****This seminar will give the student the personal skills to effectively and efficiently use a self contained breathing apparatus providing standards and legislation are adhered to. Recommended bi yearly internal training be provided to maintain skills in inspection, maintenance and use of SCBA.***

This seminar covers the following topics:

- Personal safety
- Breathing apparatus limitations
- Standards and legislation for SCBA
- Basic SCBA inspection
- Basic SCBA maintenance
- Stand-alone personal alarm safety systems
- Integrated personal alarm safety systems
- SCBA operations
- SCBA selection
- Safety checks
- Heads-up display (HUD)
- Donning and doffing
- Buddy breathing (Air equalization measures)

- Certification:** Students will be issued a Certificate of Completion upon successful completion of a written exam and demonstrated practical skills. ***Full attendance is mandatory for completion.***
- Cost:** Contact us for individual and group rates.
- Students:** 6 (Minimum)
